

EasiSolv 415N Stain & Haze Remover

Product Description:

EasiSolv™ 415N Stain & Haze Remover is an environmentally approved, biodegradable, 100% active, fast acting, low odor, ready to use liquid designed to quickly and thoroughly dissolve all ink stains, emulsion residue/stains and ghost images from all types of screen printing mesh. EasiSolv 415N will remove all stains created by solvent, water base, UV and textile inks with Flash Point: fewer hazards and less mesh destruction than harsh ghost and haze removers.

Physical & Chemical Data:

Appearance & Odor: Clear amber liquid with mild odor.

1.2 @ 20 °C / 68 °F Specific Gravity:

Vapor Pressure: < 0.1 mm Hg @ 20 °C / 6 8°F

Vapor Density: Heavier than air Boiling Point: 100 °C / 212°F

pH: >13

VOC: 576 grams/liter > 200 °F / 93 °C

Special features:

- EasiSolv 415N is a reduced hazard, biodegradable stain remover which will contribute to a safer work environment compared to many hazardous ghost and haze removers.
- EasiSolv 415N dissolves stains fast (1-5 minutes), which provides a quicker alternative to stain removers that require hours of dry time to work effectively.
- EasiSolv 415N is a low odor product, providing a more pleasant environment for employees.
- EasiSolv 415N is a one-part liquid which works on all types of ink stains and eliminates the need for multiple products (including two-part systems).
- EasiSolv 415N is a ready to use, stable product which will not separate. This reduces the time required to treat a screen and eliminates additional handling and stirring.
- EasiSolv 415N removes stains and serves as a mesh degreaser while eliminating additional steps required to prepare screens.
- EasiSolv 415N is an easy to apply liquid, which is quicker and requires less product than conventional paste products.

Application for manual use:

- Remove all ink and emulsion from screen.
- Apply EasiSolv 415N to the (well) ink and print side of the screen.
- Allow the product to dwell on the mesh for 1-5 minutes, depending on the nature of the stain.
- Flood rinse entire screen with low pressure rinse. Follow with a high pressure rinse on entire screen.
- *Prolonged contact time with EasiSolv 415N may cause mesh breakdown.
